Subject: Getting close - FS Text for our Saturday discussion
Attachments: Riverside Feasibility Study REWRITE (2020-06-20 AmyMarie stop at 930am accepted PPG edits).docx

Josh – Here is the FS text as of Saturday morning. We are getting really close. I accepted all of PPG's edits, so the only changes showing are the WSP/EPA changes. This document is getting really close, and we are moving forward to internal review to confirm that all the comments have been incorporated.

Please take a look. In particular, please do a control find for the word "lead-based paint" and "site-related contaminant" to find the additional information added regarding lead.

Talk to you later this afternoon.

Regards

AM
